REGION:

The Franken Region is located middle to eastern Germany in the state of Bavaria. The soil, the grapevine variety, the microclimate, and the winegrower's love for their vines, along the River Main and on the slopes of the Steigerwald, there are vineyards as far as the eye can see. All these elements contribute to top quality wines. The Bocksbeutel bottle is almost synonymous with quality wines and wines with special attributes specifically from the Franken Region.
